

2009 Season

As we wander

in forest green

friends also pass

but are seldom seen

Use this book

to make your word known

to others that wander and roam

Come often and read

what others write

and see how many

have joined the fight

To find old friends

or make new, this book

is a contact to others like you

The forest does belong to all

this book will remain

until the fall

Walking through The Clouds...

The warm spring rain is most  
refreshing. A beautiful night for  
a journey. Nice to see familiar  
names. There will always be those  
who will never forget...

Good wishes to all

All are welcome  
none are judged  
Some want to party  
some want to be loved

It cop many come  
for his mind to clear  
It hippie to get buzzed on  
cheap wine or beer.

A father to grieve  
for the loss of a son.  
A group of friends  
to just have some fun

Some write in this book  
things that are crude  
Some pen in love  
and could never be made

Young lovers to get away  
From parents prying eyes  
Those that must leave  
Just to say good-bye.

Some that are lost  
Come to find the way  
Others come back  
To remember last days

I have made friends  
that I will never see  
I've become friends with  
some that will never see me.

We all write in  
this little book  
We learn from each other  
when we take time to look

back from PA to visit  
old friends. I wanted to  
visit here and I'm glad they  
came with. We're just relaxing  
enjoying the site its really  
nice to get away from city  
life. I don't like the stress  
of college but it'll be a  
nice pay off. I'm glad the  
keepers cool with us coming  
up here the new guy at  
the trailer doesn't like us  
coming up here. "I won't  
be back till Christmas, not  
sure if I'll come up here.  
I will be up here when it  
get's nicer though."

Peace & Love

Dear Dim Ross

I only came here during  
the summer and it was fun  
but not as much as this time.  
This is because I have (in  
my opinion) found the meaning of  
Dim Ross. It's a place of solitude  
to be shared with friends. A place  
to light up and truly have an eye  
opening conversation with some one. It  
may sound corny but the feeling  
I had here today has given me  
a new appreciation of this place. "

- Derfky

It's been a while since I've been here  
( almost 2 months I think there will  
be snow on the ground for next time I'm here.  
( Can't wait.

The season is over  
the book is gone  
but the wait til spring  
will not be long

See you next year  
old friends and new

I hope the winter  
is good to you

First night of spring  
cold, but what stars  
shine in the dark  
sky.

I hope this season  
brings new friends  
so few of the old left

Warm spiced wine  
has made me  
sleepy

10 candles light the  
hall so that one may  
see for 10 I know  
are gone for good  
I remember when

each man lit a  
candle and the  
hall would be as  
bright as noonday  
these things are  
gone.

Now the light is  
so dim

Dimness is what  
we now call this  
place

It would be nice  
to once more see  
the light as before

A Flame was lit to show the way  
over the bridge between April and May

It was a rainy night and I was  
unable to remain throughout the night so

I lit a candle containing Birch oak sage  
13 crystals and other items. It was lit  
under a rock overhanging out of the rain  
a short distance from a Turkey nest

containing 13 eggs. I returned the following  
morning and found the flame still burning.

Feels like a good season

Best wishes to all

Harm None and

you shall find peace

When so called Friends And Lovers  
Lie Deceive and Betray

This place will still remain

These walls are solid

Unlike Humans

Treat this place with respect

and if you let it you may be healed

Open your heart to these Trees and rocks  
for they will not lie to you or make you

believe they are something they are not.

Believe in the beauty and magic that

surrounds you right now for it is real

Listen to the universe and you shall

Know the Secrets

When you get to this spot it just

I love how it feels everytime I

times be a little rough of a

you finally arrive to this beautiful  
spot (it's true to keep it that way

many times I've come here  
and rarely leave without an Arduous  
of others careless refuse. Nature's  
Not an object for man as were  
its eternal disciples, when we spit in its  
eyes we simply build a case against  
ourselves for dismissal as a  
species, that being said, another  
beautiful day is passing and  
what better for a disciple of Her  
beauty to be surrounded in it,  
green is all I see, I hope its all  
the next ~~person~~ Visitors' eyes  
behold as autumn approaches.

Thank you to the person

9/19/09 We came here  
looking for fun, and found  
beauty. For our first time  
being here, we had a  
great time. We didn't stay  
long, but memory of this  
beauty will stay with us  
forever. In our minds, and  
in our hearts.
